

Lyme Community Primary School

June 1

I know nature has become a much more appreciated thing since we've had lockdowns etc.

I know my own garden has never looked so good, although at this time of year it's more about removing greenery as weeds and pruning than putting plants in!

Anyway, our field is looking fantastic. When this building was first handed over, it was a green square of grass. Nothing else at all was on it.

Over the years we've added plants, trees, shrubs, furniture, bug hotels, bird boxes, a fire pit and seating area and plant beds. It's an amazing space for our children to enjoy, and they do!

There will be even more new additions next week as we are replacing the benches that were on the field but had to be removed.

We are re-starting Forest School lessons with Foundation Stage next year to start our very youngest children off on their nature education.

Nature is something I've always enjoyed and appreciated in my life and I want to pass that on to our children.

Summer Weather

We've been blessed with gorgeous sunshine recently. With that in mind, please put sun cream on your children and provide a sun hat/cap to protect them from the rays. Thanks.

Hope Academy Summer School

Permission slips should have been returned by today to secure your child's place at the Summer School at Hope for invited children.

If you require any further information contact Eve Mawdsley, Assistant Principal who is leading on this project. Eve's e-mail address is eve.mawdsley@sthelens.org.uk

PGL Trip

Deposits should have been paid by today to secure your child's place on this trip next year. They are very excited about it and we are really hoping as many can come with us as possible. After two years, we're ready for the adventure!

I CAN!
Inspire

Nurture

Eco-Action Team

We're thrilled that every bird box the Eco-Action team put up last year has been inhabited and there are baby birds in the nests.
